

CHILDREN & YOUNG PEOPLE'S MENTAL HEALTH & WELLBEING

FACTS AND FIGURES

1 in 5 children and young people

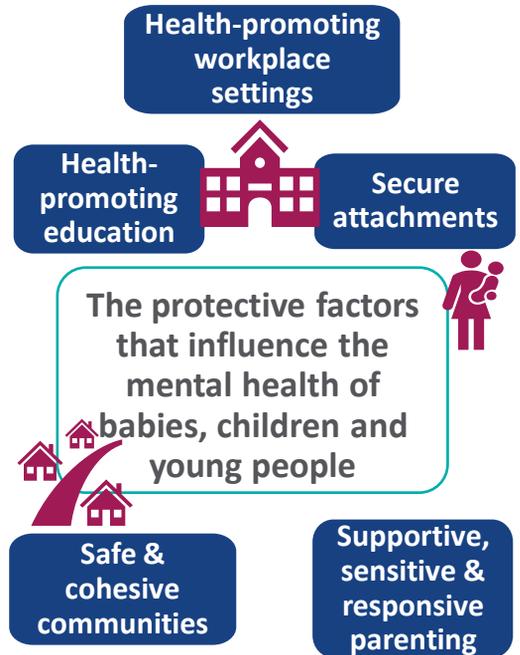

Experience a probable mental disorder (NHS Digital 2023)

50% of mental ill health starts by age 14

75% develops by age 24

COVID-19 pandemic has caused a decrease in wellbeing & increased anxiety

HELP AND ADVICE

- For some children and young people, behavioural or emotional problems will resolve with time, while others will need professional support.
- It can be difficult to know if there is something upsetting a child or young person, but there are ways to spot when something's wrong. Look out for: significant changes in behaviour, ongoing difficulty sleeping, withdrawing from social situations, not wanting to do things they usually like, self-harm or neglecting themselves.
- Remember, everyone feels low, angry or anxious at times. But when these changes last for a long time or are significantly affecting someone, it might be time to get professional help.
- There are 10 steps you can take to improve your mental health and wellbeing:

GREAT DREAM

- **G**iving – Do things for others
- **R**elating – Connect with people
- **E**xercising – Take care of your body
- **A**wareness – Live life mindfully
- **T**rying out – Keep learning new things
- **D**irection – Have goals to look forward to
- **R**esilience – Find ways to bounce back
- **E**motions – Look for what's good
- **A**ceptance – Be comfortable with who you are
- **M**eaning – Be part of something bigger
